

Antibacterial paper and its paper-making technology

Patent number: CN1271795
Publication date: 2000-11-01
Inventor: FANG LIPING (CN)
Applicant: FANG LIPING (CN)
Classification:
- **international:** D21H21/36; D21H23/02
- **european:**
Application number: CN19990113875 19990714
Priority number(s): CN19990113875 19990714

Abstract of CN1271795

An antibacterial paper is made up of antibacterial agent and paper through preparing the antibacterial agent solution with a certain concentration according to paper with different requirement and adding it to the paper pulp at one of the paper-making steps or to shaped paper to make the paper contain the bacterial agent of 300-2000 ppm/per ton (dried paper). Its advantages are simple making process, low cost, high effect, and wide application range.
